SEEMS PRETTY cool NOT..... This is only a first impressions based review, because I've only made it to the second level of this game. I loved the first America's Retribution, and so far, I'm really liking Term 2. The controls feel good, I love the weapons and I love all the references to everything that surrounded the 2016 American Presidential election and onward from there. Whenever I beat this game, I will update this review accordingly. Bottom line: This game, as well as the first one, are worth buying and playing (at least one playthru).. It looks pretty nice, despite the fact that the game is at an early stage of development. I will watch for updates and wait for something interesting. I wanted to pay attention to the homeless. This mood can hang over my Vikings even if there are 5 empty houses in the settlement and of course they will sleep on the grass. Also did not quite understand what the nightly adventures lead to.. Hoped it would be similiar to slay the spire, but with a bit more story. the fights don't have real choices (chapter 1) with 3 /4 cards the choice is obvious most times.... Bought it for nostalgia. I wish it was HD remastered (it's not), but it works fine so that's good enough for me.. Absolutely terrible. i could see if this was made by one guy. but somehow, this was made by a team. its nearly impossible with arrow keys to fly. you cant loop, you cannot fly upside down. aiming is terrible, guns sound like they came from an 80s arcade game. hell most 80s arcade games are better than this. instantly uninstalled. do not waste your time. I play warthunder religiously, i decided to give this a chance. it didnt even deserve the chance.

Pro: another ww1/2 game. Got me excited.

Con: has the mechanics of pacman. im not even exadurating.

first the game is slow. the game is confusing. also when i made a new world it trashed my old world. when ur charter is made there is nothing else to do it is just boring.. If evolution could produce the hideous abominations of this game, that would be a miracle indeed. I'm not a evolutionist, nor does this game do anything to change that, but as a simulation of a imaginary theory, it does pretty good I suppose. Boring after a while unless you just want a more complex version of spore.

10/10 bugged Chucky Darwin mechanics. This for me is the absolute worst of all the subway/train simulators. Firstly, I am a real life retired NYC Transit motorman, so I am evaluating the game from, perhaps a very different standpoint than most others. The scenery was not very well done. Too many buildings repeat too often. But what the programmers did to the models of the R-33/36 railcars is a disgrace and a total misrepresentation of how that equipment performs. If they had simply re-skinned the PA series railcars from WOS1, they would have been almost correct in the performance area. While this review is late, I would still advise, do not waste your money on this garbage. Every other subway/train simulator on the market is a better investment than this.. It's very boring .. I bought all DLC and played through the entire game. It's a simple, very enjoyable game for some chill gaming. Uses a time bar in combat which controls turns, players can manipulate the speed and movement along the time bar using different abilities.

GAME IS UTTERLY RUINED BY FINAL BOSS (at the end of chapter 5) WHICH IS AN ENORMOUS LEAP IN DIFFICULTY AND USES EXTREMELY ANNOYING MECHANICS. Bad balance, don't waste your time with it unless you're a sadist.

Lunar New Year Steam SALE 2019 continue! Discounts on games up to 90%! 1 day left!:

Lunar New Year Steam Sale 2019 continue! With great deals across the Steam catalog.

You can also purchase our games with very good discounts!

Therefore, we have prepared for you a list of our games that can be bought with a good discount!

List of our games with a good discount:. **This is Halloween!:**

Hello, guys & girls!

We have a spooky update for you. No, it isn't a horror update for the game, but it changes a lot visual aspects of the game. We added a lot of new assets such Halloween-themed soundtrack, pumpkins, graves and candles, **HAAAATS**, new apple skins, etc. We would like to celebrate this event with you that's why we prepared and released this update while we're working on next two huge updates.

If you following us on Twitter or Facebook, you probably know that we working on two huge updates. One of them will be released soon after the end of the Halloween event. And another one will be released close to the Christmas event.

More about next two updates. **Patch Notes 1.10.58:**

General. **Twitch stage at Insomnia 60:**
